EDUCATION

Eötvös Loránd University   Budapest, Hungary
Bachelor of Sciences in Computer Science   *Sep. 2023 – June 2026*

EXPERIENCE

Fullstack Software Developer   Nov. 2022 – Present
Hupo   *Singapore (Remote), Singapore*

- Developed a full-stack web platform using Node.js, React, MongoDB and Docker
- Implemented MFA logic to enhance security measures for user authentication processes
- Optimized the Node.js backend, resulting in improved performance, scalability and developer experience of the project
- Made contributions to the mobile application using React Native, with a primary focus on backend enhancements and React frontend development
- Collaborated closely with multidisciplinary teams over the course of a year

Software Developer   May 2022 – Nov. 2022
Datanimate (defunct)   *Sydney (Remote), Australia*

- Developed a REST API using FastAPI and PostgreSQL
- Designed and implemented an "Excel-like" table sheet using React, optimized for handling large data sets, enhancing user productivity and data visualization capabilities

Full stack developer   Jan. 2022 – May 2022
Anor Systems   *Tashkent, Uzbekistan*

- Managed VPS servers, optimizing for peak performance and reliable deployments
- Incorporated Docker and wrote shell scripts to streamline and automate deployment workflows
- Spearheaded frontend development with Vue.js, creating dynamic dashboards for improved data interaction and insights
- Developed a real-time chat feature using Node.js and socket.io, facilitating instant user communication

PROJECTS

Hupo | *Coaching Platform Redesign*   Nov. 2022 – Present
- Led the end-to-end redesign of the coaching platform, significantly improving UI/UX.

Bizler | *Software Agency, bizler.group*   June 2021 – Present
- Functioning as CEO, focusing on software solutions for local businesses in Karakalpakstan.
- Managed the development and launch of the agency's online presence.

Náwbet | *Electronic Queue System*   June 2023 – Oct. 2023
- Founded and launched an electronic queue management system for local businesses.
- Acquired hands-on experience in startup operations and the decision-making process.

Saiga | *Rideshare App* Inactive   May 2020 – Dec. 2020
- Initiated a rideshare startup, gaining practical insights into project and product management.
- Managed the app which saw active usage before encountering maintenance hurdles.

TECHNICAL SKILLS

Languages: Python, SQL (Postgres), NoSQL (MongoDB), JavaScript, TypeScript, HTML/CSS, PHP
Frameworks: React, React Native, Node.js, Express.js, FastAPI
Developer Tools: Git, Gitlab, Docker, CircleCI, Google Cloud Platform, Amazon Web Services (AWS), Microsoft Azure, VS Code, PyCharm, IntelliJ
Libraries: prisma, mongoose, socket.io
